

	Suddenly some people came in a helicopter. They wanted the gold statue.
	The helicopter came back and took the people away.
	They went into a big stone building. Inside the building there was a hole in the floor. In the hole there was a gold statue of the king.
	Then he used a big stone to get the statue.
	Grandpa, the children, and Silvia went to the Lost City of Gold.
	Ben went down into the hole. He tried to take the statue, but snakes came out of little doors.
	One man got the statue. Then a snake moved on the statue so he threw it back in the hole.
	In the end, Silvia found out that the people were working for Dr Lopez!
