Mia's Story

Mia is in grade 4. She has been living in Windsor with her mother and her brother for two years. They moved from Venezuela when Mia was in grade 2. When Mia's mother had her parent-teacher interview last October; everything seemed to be ok. Mia was happy and she was doing well at school. It's February and now her mother is having another interview with the teacher. For the last couple of months, Mia has been having headaches and she complains that she does not feel well enough to go to school. However, if she stays home, her headache disappears. Her grades are not as good as they were earlier this year. What could be wrong? Write two questions Mia's parents could ask the teacher.
