

How You Remind Me

Nickelback

..... made it as a wise man
I couldn't cut it as a poor man stealing
Tired of like a blind man
I'm sick of sight without a sense of
And this is how you remind me

CHORUS

This is how you remind me
Of what I really am
This is how you remind me
Of what I really am

It's not like you to say
I was waiting on a different story
This time I'm
For handing you a worth breaking
And I've been, I've been down
Been to the of every bottle
These five words in my head
Scream: Are we having fun?

Yet, yet, yet, no, no
Yet, yet, yet, no, no

It's not like you didn't that
I said I love you and I I still do
And it must have been so bad
..... living with me must've near killed you

CHORUS

sorry
never
mistaken
living
heart
feeling
know
bottom
swear

damn
cause
wrong
yet
