

# 01- ACTIVIDAD INTRODUCTORIA

Matemáticas. Grado 2°

Profesor Orlando Heredia

Jueves 26 de enero de 2023

Estudiante: \_\_\_\_\_

## 1. Add Over Again

Add. Show partial sums. Look for the pattern.

Write the last addition problem in the pattern.

$$\begin{array}{r} \square \square \\ 134 \\ + 252 \\ \hline \square \square \square \end{array}$$

$$\begin{array}{r} \square \square \\ 154 \\ + 254 \\ \hline \square \square \square \end{array}$$

$$\begin{array}{r} \square \square \\ 174 \\ + 256 \\ \hline \square \square \square \end{array}$$

$$\begin{array}{r} \square \square \square \\ + \square \square \square \\ \hline \text{Sum is } \square \square \square \end{array}$$

## 2. Missing Numbers

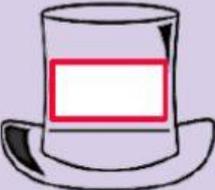

Use mental math to find the missing digit of each number. Then write the number.

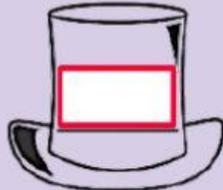

a.  $200 + 1\square 2 = 342$

b.  $400 + \square 23 = 623$

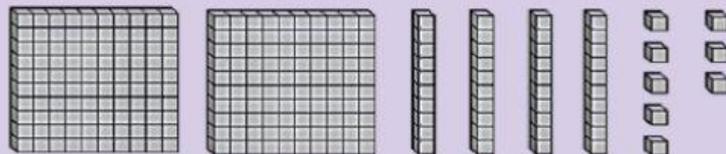

## 3. Trick Hats

What number is hidden inside each hat? Use mental math to solve. Write each missing number.

a.  $226 +$    $= 526$

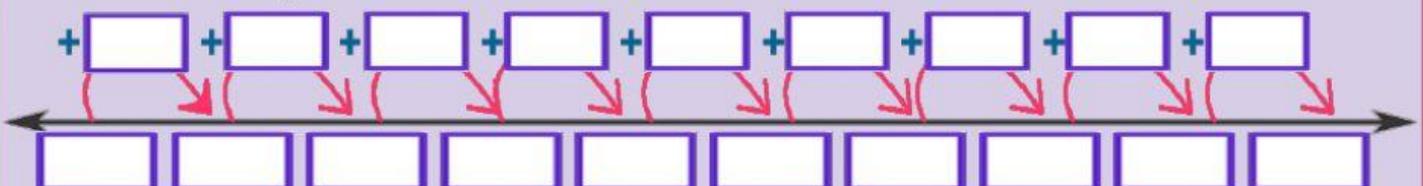

b.  $728 +$    $= 748$

4. Which number do the models show?

Answer

5. Use the open number line to find  $470 + 342$ .

There are several possibilities. It is not necessary to use all the boxes.
