Figure 1. Schematic diagram of the experimental setup. The subject is seated in a chair and views the screen through a mirror. The screen displays the visual feedback of the hand position. The hand is positioned at the starting point (A) and moves towards the target point (B). The distance between A and B is 10 cm. The hand is moved by a motorized arm. The motorized arm is controlled by a computer. The computer is connected to a motor. The motor is connected to a pulley system. The pulley system is connected to a string. The string is connected to the hand. The hand is moved by the string. The string is pulled by the motor. The motor is controlled by the computer. The computer is connected to a motor. The motor is connected to a pulley system. The pulley system is connected to a string. The string is connected to the hand. The hand is moved by the string. The string is pulled by the motor. The motor is controlled by the computer.
