

## Exercise 6

*Read the IELTS Speaking Part 2 task card. Then listen to a student's response to the task card and answer the questions. Choose True or False.*

---

Describe a piece of computer software that you use.

You should say:

how you found out about the computer software

how often you use this computer software

what you use it for

and give your opinion on it.

1. The student covers all the points on the task card. True/False
2. The student uses a variety of discourse markers to structure the response and connect ideas. True/False
3. The student includes examples of the following grammar:

Conditionals True/False

future forms True/False

modals in the past True/False

passive True/False

past continuous True/False

past perfect True/False

present continuous with *always* for habits True/False

present perfect True/False

present perfect continuous True/False

relative clauses True/False
