

I do athletics at school. We have a great coach who organizes lots of competitions with other schools. We practice every day at lunchtime. I ran at the weekend with my dad. This spring we are going to run in a mini marathon together. My dad works in an office but he thinks it's really important to exercise to keep healthy. I don't usually win any races but I have fun.

Joe.

I play football in the school team. Some people think it's funny for a girl to play football, but I enjoy it. The other boys on the team don't mind because they know I play as well as they do. We practice on Mondays, Wednesdays and Fridays. I like being with my friends at the practice sessions after school.

Sue

I am a real water baby. I usually swim 5 days a week after school. I compete with my club at swimming events. I always swim in the breaststroke races and I sometimes swimming the relay. I would like to swim in the Olympics one day.

Jane

In the Sumer, I play tennis. I'm quite competitive, so I prefer singles tennis to doubles! I usually have a match every Saturday and I practice every day. I also like playing basketball with my friends at weekends. It keeps me fit.
