1. Read the text. Choose the WRONG words in each sentences.

Bees are flying insects. There are around 20,000 different types of bees in the world. Most bees live in large groups, but some live alone. They use flowers to make honey, which is also their food. There are many worker bees, but only one queen bee in every large group. All the other bees have to look after her. Most bees live between 40 days and 5 months, but queen bees live for about 3 years.

a. The text is fact / a story.
b. It comes from an advertisement / a book.
c. It is in the present simple / past simple tense.
