

SUGURU

	2		5			3
						4
	1		1			
			2		2	

Rules

Each coloured section has between 1 and 5 squares.

Your task is to put the numbers 1–5 into the coloured sections depending on the number of squares i. e. 4 squares need numbers 1 to 4.

The only rule is 2 numbers that are the same can not be next to each other, vertically, horizontally or diagonally.

For example you can not put another 1 in the red squares
