

Don't get sad, get even

Wildest Dreams

I swear I don't love the drama, it loves me

King of my heart

He's so bad but he does it so well

Cruel Summer

I'll be the actress starring in your bad dreams

Look What You Made Me Do

What doesn't kill me makes me want you more

Gorgeous

Shade never made anybody less gay

Dancing With Our Hands Tied

You taught me bout your past, thinking your future was me

End game

You've ruined my life by not being mine

Vigilante Sh*t

I'm a mess, but I'm the mess that you wanted

Enchanted

My thoughts will echo your name until I see you again

All to well

The taste of your lips is my idea of luxury

Willow

Wherever you stray, I follow

You Need to Calm Down
