

# English for children

Read the mathematical operation, then fill in the blanks

$$\boxed{\phantom{000}} \underline{\phantom{000}} \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

One hundred eighty-one thousand, two hundred fifty plus six hundred forty-five thousand equals eight hundred twenty-six thousand two hundred fifty

---

$$\boxed{\phantom{000}} \underline{\phantom{000}} \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

Nine hundred fifty-six thousand, one hundred eighty-five minus eight hundred fifty-four thousand, six hundred seventy-five equals one hundred one thousand, five hundred ten

---

$$\boxed{\phantom{000}} \underline{\phantom{000}} \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

Five hundred eighty-nine thousand, six hundred ninety-three times eighty-five equals fifty million, one hundred twenty-three thousand, nine hundred five

---

$$\boxed{\phantom{000}} \underline{\phantom{000}} \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

Thirty-four million, five hundred ten thousand, four hundred twenty-eight divided by thirty-six equals nine hundred fifty-eight thousand, six hundred twenty-three

---

$$\boxed{\phantom{000}} \underline{\phantom{000}} \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

Eighty-five thousand times seven million, eight hundred fifty-six thousand, nine hundred twenty-three equals six hundred seventy-three billion, two hundred twenty million, four hundred forty-seven thousand, two hundred fifty-five

---

Look at the mathematical operation and write it down

$$145,869 + 965,256 = 1,111,125$$

$$8,659 \times 5,266 = 45,598,294$$

$$789,528,861 - 248,235,754 = 541,293,107$$

$$252,333,056 / 256 = 252,333,056$$

$$2,568,759 \times 845 = 2,170,601,355$$
