

Funções do primeiro grau - Identificação gráfica - Prof. Hipácia

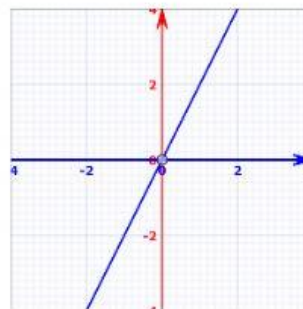

Tipos: LEMBRE-SE: b é o ponto onde a reta da função intercepta o eixo y

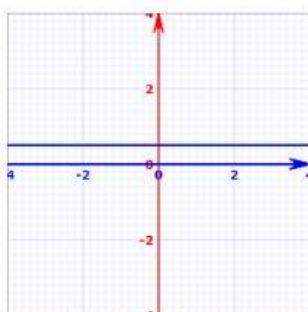

Associe a função ao gráfico correspondente e classifique-a:

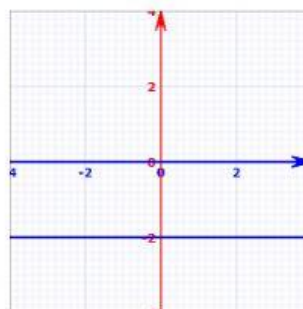

$$y = 2x - 2$$

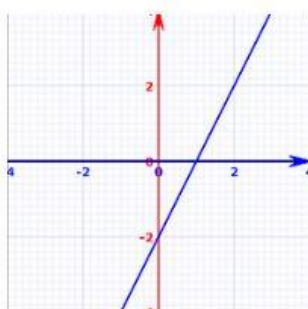

$$y = x - 2$$

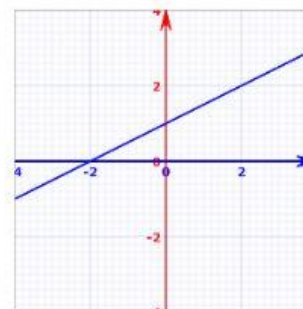

$$y = 2x$$

$$y = -2$$

$$y = 0.5x + 1$$

$$y = 0.5$$
