Area of a Kite

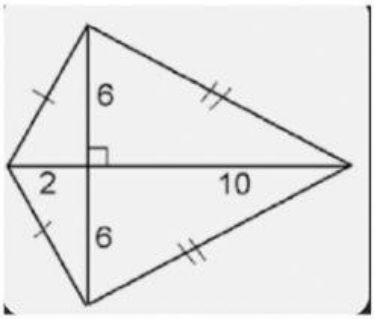

To find the area of a kite, is very similar to finding the area of a rhombus

- Use the internal diagonals to find the area **$A= d_1d_2÷2$**

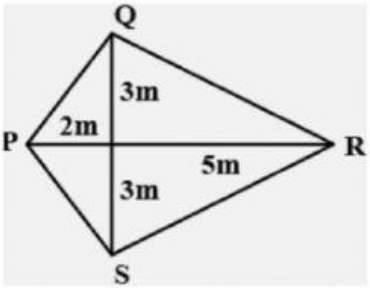

***Show your work, don't leave spaces, use "/" to show division and ^2 to show squared units**

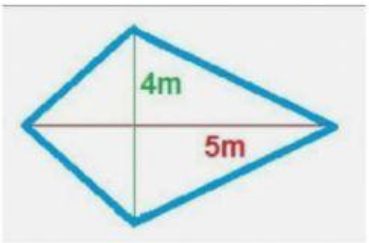

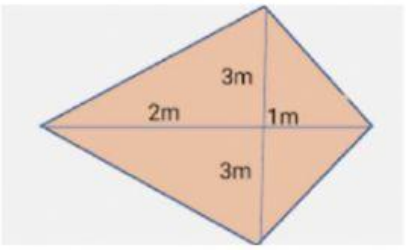

1) A=d1d2/2	2)	3)
=		
=		

4)	5)	6)
