Hi, Andy

I am writing to you to talk about favourite jobs of my family members. My mother is an English teacher in a primary school. She loves her students and teaches them to speak English and sing English songs. Her lessons are always interesting. My father is a vet. He works to save the pets. Some of the pets are clever, they can dance. My elder brother is a technician. He is writing many game programs and studying programs for teenagers. He is very intelligent. My sister is a student in a high school. She spends most of her time drawing. She likes Art and wants to be an artist.

There are so many interesting jobs to choose, but only one is good for me. I like Science. I want to be a scientist. What about you? Write about your favourite school subjects, I will guess your future job.

Best wishes,
Your pen pal
