

Listen, Drag and drop 😊	
90 Million Miles	
	Over the horizon in to your eyes
	A beautiful light
	People get ready, get ready
	'Cause here it comes it's a light
	Ninety-three million miles from the sun
Oh, my, my	
How beautiful	
Oh my beautiful mother	
	If you do it right
	You can always come home
	Son in life you're gonna go far
	You've come a long way to belong here
	Two hundred forty thousand miles from the moon
	To share this view of the night
	She told me
	Over the horizon is another bright sky
	A glorious night
	Just know that wherever you go
	You'll love where you are
Oh, my, my	
How beautiful	
	He told me
	But the absence of the light is a necessary part
	Just know, that you're never alone
	You can always come back home
	Son sometimes it may seem dark
	Oh my irrefutable father
Oh oh oh	
Oh oh oh	
	You can always come back
	Looking deeper through the telescope
	Just know, that wherever you go
	There is always a hand that you can hold on to
	No you're never alone
	You will always get back home
	You can see that your homes inside of you
	Every road is a slippery slope
Oh oh oh	
Oh oh oh	
Oh oh	

Oh oh oh	
Oh oh oh	
Oh oh	
	People get ready, get ready
	A beautiful light
	'Cause here it comes it's a light
	Over the horizon in to our eyes
	Ninety-three million miles from the sun
