You are going to watch a video about **neuroplasticity**.
Look at the statement and say if you think it's true. Then,
watch the video to check.

Our brain remains adaptable only until a certain age. When we become adults, the brain develops and gets fixed so it becomes really hard to change some patterns of behaviour and learn new things.

Back to school: did you know? Now and then.

Watch and say what used to be different about schools and education.

3) *She used to have a ...*

4) *She used to be ...*

5) *She used to have a ...*

Used To Listening Exercise

Fill in the blanks with the correct lyrics from the song.

Now and then I think of when we were _____

Like when you said you felt so _____ you could die

Told myself that you were right for me

But felt so _____ in your company

But that was _____ and it's an ache I still remember

You can get _____ to a certain kind of sadness

Like resignation to the end, always the end

So when we found that we could not make _____

Well you said that we would still be friends

But I'll _____ that I was glad that it was over

But you didn't have to cut me off
Make out like it never _____ and that we were nothing
And I don't even need your love
But you _____ me like a stranger and that feels so rough
No you didn't have to stoop so _____
Have your friends collect your records and then change your number
I guess that I don't need that though
Now you're just somebody that I used to know
Now you're just somebody that I used to know
Now you're just somebody that I used to know

Now and then I think of all the _____ you screwed me over
But had me believing it was always _____ that I'd done
And I don't wanna live that way
_____ into every word you say
You said that you could let it go
And I wouldn't catch you hung up on somebody that you used to know
