DAILY TEST CHAPTER 5 FOR 9TH GRADE STUDENTS OF MTs MANBAUL HUDA/SMP IT CIHIRUP

The following song lyrics is for questions number 1 to 6

Adaptation

Marine mammals like whales and otters
Have adapted to the cold ocean waters
Real thick fur or a blubbery skin
Doesn't let much cold ocean water in
Plants and animals have different needs
Developing features that will let them be
In their environment
In their environment
In the deserts things get hotter
Plants and animals must conserve water
Plant stems and leaves are waxy and thick
While being nocturnal is an animal's trick
Plants and animals have different needs
Developing features that will let them be
In their environment
In their environment

The following song lyrics is for questio number 7 to 12

Home

Another summer day
Has come and gone away
In Paris and Rome
But I wanna go home, mmm
May be surrounded by
A million people I
Still feel all alone
I just wanna go home
Oh, I miss you, you know
And I've been keeping all the letters
That I wrote to you
Each one a line or two
I'm fine baby, how are you?
Well I would send them but I know
That it's just not enough
My words were cold and flat
And you deserve more than that
Another aeroplane
Another sunny place
I'm lucky I know
But I wanna go home
Mmm, I got to go home
Let me go home
I'm just too far
From where you are
I wanna come home
And I feel just like
I'm living someone else's life
It's like I just stepped outside
When everything was going right
And I know just why you could not
Come along with me
That this was not your dream
But you always believed in me
Another winter day
Has come and gone away
In even Paris and Rome
And I wanna go home
Let me go home
And I'm surrounded by
A million people I
I still feel alone
Oh, let me go home
Oh, I miss you, you know

We Love to Learn About the Forest

Our class is going to the forest
To learn about the things we see
We see tall trees like the spruce and pine
And acorns from an oak tree
A pinecone has some tiny nuts
That the squirrels all love to eat

LIVEWORKSHEETS

We love to learn about the forest
Everything we see there makes it a beautiful place
makes it a beautiful place
The forest has different types of mushrooms
And they might not be good for us
Our teacher tells us just to be careful
Because they may be poisonous
We even plant some little trees
We can't wait to see them grow up
We love to learn about the forest
Everything we see there makes it a beautiful place
The forest is a beautiful place

I Won't Give Up

When I look into your eyes
It's like watching the night sky
Or a beautiful sunrise
Well, there's so much they hold
And just like them old stars
I see that you've come so far
To be right where you are
How old is your soul?

Well, I won't give up on us
Even if the skies get rough
I'm giving you all my love
I'm still looking up
And when you're needing your space
To do some navigating
I'll be here patiently waiting
To see what you find
'Cause even the stars they burn
Some even fall to the earth

LIVEWORKSHEETS

We've got a lot to learn
God knows we're worth it
No, I won't give up
I don't wanna be someone who walks away so easily
I'm here to stay and make the difference that I can make
Our differences they do a lot to teach us how to use
The tools and gifts we got, yeah, we got a lot at stake
And in the end, you're still my friend at least we did intend
For us to work we didn't break, we didn't burn
We had to learn how to bend without the world caving in
I had to learn what I've got, and what I'm not, and who I am
I won't give up on us
Even if the skies get rough
I'm giving you all my love
I'm still looking up, I'm still looking up
Well, I won't give up on us (no I'm not giving up)
God knows I'm tough enough (I am tough, I am loved)
We've got a lot to learn (we're alive, we are loved)
God knows we're worth it (and we're worth it)
I won't give up on us
Even if the skies get rough
I'm giving you all my love
I'm still looking up
