10

Reading

3 Read and match the descriptions to the sea animals.

- 1 It's slower and heavier than a fish.
 - 2 It's longer than a turtle, but it's smaller than a shark.
 - 3 It's more dangerous than a turtle and it's smaller than a fish.
 - 4 It's heavier than a shark.
 - 5 It's smaller and prettier than a fish.
 - 6 It's bigger than a seal, but it's smaller than a whale.
- a seahorse
 - b jellyfish
 - c turtle
 - d shark
 - e seal
 - f whale

4 Read and circle.

Sea lions and walruses live in the ocean. They live in the water, but go on land, too. Sea lions are smaller than walruses and walruses are heavier than sea lions. Sea lions can walk on all four flippers, but walruses can't. Sea lions have got ear flaps, but we can't see a walrus' ears. Walruses have got whiskers and tusks, but sea lions haven't got any. Sea lions eat fish, squid and octopus, but walruses prefer shellfish and worms. A baby sea lion is called a pup, and a baby walrus is called a calf. Some people think walruses are uglier than sea lions. What do you think?

- 1 **Sea lions** / Walruses / Sea lions and walruses have got ear flaps.
- 2 **Sea lions** / Walruses / Sea lions and walruses can go on land.
- 3 **Sea lions** / Walruses / Sea lions and walruses have got whiskers and tusks.
- 4 **Sea lions** / Walruses / Sea lions and walruses can walk on all four flippers.
- 5 **Sea lions** / Walruses / sea lions and walruses eat fish, squid and octopus.
- 6 Baby **sea lions** / walruses / sea lions and walruses are called calves.

Writing

5 Write the comparative adjectives. Then put them in the correct group.

slow slower
