

I'm going to my time

I have all the time in the to make you mine

It is in the stars above

The gods decree

You'll be here by my side

Right next to me

You can but you cannot hide

Don't say you me

Don't say you me

Don't say you me

It's

Don't say you're

Out there without me

Iyou can't be

'Cause it's no good

I'll be fine

I'll be patiently

'Til you the signs

And come running to my arms

When will you realize?

Do we have to wait 'til our worlds collide?

Open your eyes

You can't turnthe tide
