Hello, I'm Katy. There are a lot of useful machines in my house. There are many machines in the kitchen. There's a cooker for cooking food and a toaster to make toast. There isn't a blender. But there's a big fridge used for keeping our food cold. There isn't a microwave. And there isn't a dishwasher so I wash the dishes with Mum. In the living room there's a DVD player. There's also Dad's computer but he hasn't got a printer.

**2 Read about the city of the future and tick (✓) or cross (X).**

Hello, I'm Emma. In my city of the future, I think there will be a very modern university and a huge shopping centre. I think there won't be a market. I think there will be more airports because people will travel more. In my city of the future, there won't be any trams or motorbikes. There will be a super-fast underground system. And there will be helicopters to transport you across the city – but they won't be noisy!

**3 Read and match.** There are two extra words.
