

## The Primary Teeth

Fill in the space with the correct number.

Draw a line to match the tooth to its job.

There are  
\_\_\_\_\_ incisors.

They chew and  
crush food until it  
is small enough to  
swallow.

There are  
\_\_\_\_\_ canines.

They cut food into  
smaller pieces that  
we can chew.

There are  
\_\_\_\_\_ molars.

They are sharp and  
pointed and tear  
our food.
