

## TRAVEL ADVICE ABOUT TIPPING AROUND THE WORLD

Listen to a radio programme about travel and holidays. Write a, b or c in the box.

- 1- Why do listeners write to the programme? 
  - a- To get advice
  - b- To give opinions
  - c- To complain about holiday trips
- 2- Who does Stella tip? 
  - a- Anyone who provides service
  - b- No one
  - c- People who affect her holiday in a positive way
- 3- Why are most people surprised in North America? 
  - a- The service is bad
  - b- The tips are high
  - c- It's expensive
- 4- What does Stella say about tipping in different countries? 
  - a- Always pay the same amount
  - b- Try to avoid tipping because of service charges
  - c- Expect to pay different percentages
- 5- Why are service charges more common? 
  - a- Because many waiters come from different countries
  - b- Because it solves a problem when you have international guests
  - c- Because restaurants want to charge more

Listen again and match the different amounts for tipping in each country. Some places or some answers have two arrows

|                           |                                                                           |
|---------------------------|---------------------------------------------------------------------------|
| The USA or Canada         | 10 % normal                                                               |
| Central and South America | It isn't common to tip                                                    |
| Europe                    | In many countries there is a service charge added so you don't need a tip |
| China or Japan            | 20% normal                                                                |
| India and internationally | 10% if you don't get a good service                                       |
