# Reduce – Reuse – Recycle

Most of us are familiar with recycling, as well as with how important it is.

1 \_\_\_\_\_ of this, there is a significant number of people worldwide who are not recycling.

Unfortunately, 2 \_\_\_\_\_ the fact that most of the developed countries in the world have made recycling a requirement by law, others are finding the task 3 \_\_\_\_\_ much to handle. Why? Perhaps because the organisation and funding necessary 4 \_\_\_\_\_ setting up and maintaining recycling factories is 5 \_\_\_\_\_ expensive that some governments don't want to be bothered, even 6 \_\_\_\_\_ they know how important it is.

However, the benefits of recycling are more than the drawbacks and people must be made aware of them. It's vital that we recycle

7 \_\_\_\_\_ we can reduce global warming and levels of pollution.

Moreover, we must reuse materials instead of throwing them out

8 \_\_\_\_\_ save energy and natural resources.
