

ANIMAL BODY PARTS

Para describir un animal tenemos que decir las partes del cuerpo que tiene y usamos el verbo:

HAVE GOT = TENER.

1 Listen and repeat

They = ellos/as (plural) **have got** = tienen **They've got**

They **haven't got** = ellos /as no tienen

Una vez que hemos recordado todas estas cosas vamos a describir a las abejas:

"Bees have got sting. They've got four wings. It can fly. They've got six legs. They can walk. They've got two antennae. They haven't got ears but they've got two eyes and a mouth"

Ahora que hemos visto la descripción de las abejas vais a completar el siguiente texto sobre las hormigas.

Ants antennae. They six legs.

They walk. They sting.

They wings. They fly.

They ears.
