

LS 3 Science - Term 3
Measurement Topic 2: Heat and Light Energy
Measuring Temperature

Instruction: For each of the thermometers write:

1. The highest temperature (that can be read on the thermometer)
2. The lowest temperature (that can be read on the thermometer)
3. The current temperature (that is shown on the thermometer)

<div style="display: flex; align-items: center;"><div style="text-align: right; margin-right: 10px;">$^{\circ}\text{C}$ 100 90 80 70 60 50 40 30 20 10 0</div></div> <div style="margin-left: 20px;"><p>Highest temperature =</p><p>Lowest temperature =</p><p>Current temperature =</p></div>	<div style="display: flex; align-items: center;"><div style="text-align: right; margin-right: 10px;">$^{\circ}\text{C}$ 60 55 50 45 40 35 30 25 20 15 10</div></div> <div style="margin-left: 20px;"><p>Highest temperature =</p><p>Lowest temperature =</p><p>Current temperature =</p></div>
