

There is / there are

Hello! My name is Mary Johnson and I am from Manchester. I'm twelve years old. I have got short blond hair and my eyes are green. I can play the guitar very well, but I can sing or dance. I like apples and hamburgers but I don't like onions.

In my town, there are eight schools. There is a bank opposite one school. There is a park behind my school. There are five supermarkets. One supermarket is next to the local library. There are five cinemas. My favourite cinema is in the corner of Oxford and Len Street. There is a very big hospital next to a cinema. And my house? My house is between the bank and the post office!

Answer true or false:

There is a bank opposite one school.	True	False
