

# BIODIVERSITY. Video worksheet

## 1. Finish the sentence.

The more biodiversity....

...the better for animals but not for people.

... the more secure all life on Earth is.

...the more money we can make.

## 2. Complete the text.

We need \_\_\_\_\_ to lock away carbon and keep the \_\_\_\_\_ stable. We need pollinators, soil organisms and plankton to keep the \_\_\_\_\_ we eat in supply. We need strange \_\_\_\_\_ to make our \_\_\_\_\_ and coral reefs and mangrove swamps to protect the \_\_\_\_\_ we depend upon. Our planet's biodiversity provides all the things we need for \_\_\_\_\_ but it will only do so if there's lots of it and at the moment it is under \_\_\_\_\_.

## 3. How has our activity reduced biodiversity? Match each sentence with its percentage.

Reduced populations of wild animals by	65%
The number of lions in Africa has dropped by	95%
The number of flying individual insects in Europe has dropped by	60%
The number of bluefin tuna in the Pacific has dropped by	75%
