

I'm With You - Avril Lavigne – starter (Present Continuous)

Cross out

I'm standing/speaking on a bridge
I'm watching/waiting in the dark
I thought that you'd be here by
now/today
There's nothing but the rain/sun
No footsteps on the ground
I'm listening/looking but there's no
sound

[CHORUS]

Isn't anyone taking/trying to find me?
Won't somebody come take me
house/home
It's a damn cold night/day
Trying/telling to figure out this life
Won't you take/get me by the hand
Take me somewhere old/new
I don't know/recognize who you are
But I, I'm with her/you
I'm with/by you

I'm looking/living for a place
I'm speaking/searching for a face
Is anybody here/there I know
Cause nothing's coming/going right
And everything's a mess
And no one likes to be together/alone

[COME BACK TO CHORUS]

Oh why is everything so
confusing/coming
Maybe I'm just out of my mind/head
Yea yea yea

It's a damn cold/hot night
Trying/thinking to figure out this life
Won't you take me by the arm/hand
Take/Get me somewhere new
I don't know who/where you are
But I, I'm with/without you
I'm with you/him

Take me by the hand/heart
Take me someone/somewhere new
I don't know who/where you are
But I, I'm/he's with you
I'm with/without you

Take me by/with the hand
Take/Make me somewhere new
I don't know who/what you are
But I, we're/I'm with you
I'm with you/him
I'm/He's with you
