

Reported speech (1 - changes in reference words)

We use reported speech to tell others what someone said.

To do this, we use **reporting verbs**, depending on sentences:

- statements: say, tell, explain, announce, add, promise, complain...
- questions: ask, wonder, enquire, want to know...
- orders: tell, instruct, warn, remind, order...
- requests: ask, beg...
- offers & suggestions: offer, suggest, propose, advise, recommend...

We must **adapt the reported sentence** to the new situation:

1. Change pronouns
(to refer to correct people and things).
2. Change the verb (change tense/modals
and adapt to new subject).
3. Change place and time references.

Complete using the correct time reference:
