FAMILY VACATION

Hi, I'm Laura and the last family vacation was the best because we went to the island of San Andrés with my parents and my little brother, we were very happy. The trip was very long, so I decided to put on the headphones until I fell asleep with my brother.

When we got up, we were at the hotel, we went to see the beach, the sea was crystal clear and beautiful, we also saw the sea animals. We swam underwater and saw the fish, there were hundreds of them. Then, we met the wonderful people of San Andrés, their skin color was spectacular, we laughed with them and asked them to talk a little about the island.

Afterwards, we went to the rain forest, there were many monkeys, they climbed on our heads and we fed them, there were also many colorful parrots. The next day, we decided to go see the caves with other families. Every step we took, there were mysterious things, and my brother was scared.

When we went out, we could see the geysers that we observed them and the water splashed our faces. In the late afternoon, we went to a large pond with natural water; we entered with a jump.

After all this adventure, we arrived at the hotel to rest, I fell asleep quickly because I was very tired. This has been the most amazing and fun vacation I've ever had.
