

Reading Part 6

Fishing

Sport fishing is normally done (1) a fishing rod and a line with a hook to get the fish. This method is (2) angling. There may be rules that say how (3) fish any fisherman can catch. The rules generally do not allow the use (4) nets. Sport fishing can also be a contest where fishermen try to get more fish (5) other fishermen. This sport came (6) the U.S..

Plastic

If you look (1) , you'll probably see plastic of some sort. You're probably wearing clothes that are partly (2) of plastic. Much of your food and many drinks come (3) plastic containers, like bags or bottles. Plastic is everywhere because people make (4) in large quantities. That's because it is so useful in just (5) everything people do. That's (6) waste plastic is becoming a serious problem, especially around the world's coastlines and oceans.
