

Área:	Matemática	Año de E.G.B:	Cuarto
Tema:	Eje de simetría		

1. Complete la simetría (mitad) de la siguiente figura, arrastrando las figuras según corresponda:

The figure shows a vertical axis of symmetry on the left. To the right of this axis, there is a composite shape made of several colored rectangles. From top to bottom, the rectangles are: a green rectangle, an orange rectangle, a blue rectangle, and a purple rectangle. To the right of these, there are three more rectangles: a pink rectangle, a red rectangle, and a yellow rectangle. Below the main figure, there are seven separate colored rectangles that can be dragged to complete the symmetrical figure: a green rectangle, a pink rectangle, an orange rectangle, a red rectangle, a blue rectangle, a yellow rectangle, and a purple rectangle.

2. *Seleccione las imágenes que tienen simetría:*
