

TOPIC	Third conditional	LEVEL	English 4	UNIT	11	SKILL	Writing
Teachers	Carmen Betín	María Mogollón			María Hilda Leal		

WRITING

1.

Answer the questions use the third conditional

- If no one has invented the computer, how would your student life have been different?

- If no one had invented headphones, how would you have listened to music on the street?

2.

Write a paragraph:

Look at the invention and write a paragraph using Third conditional

3.

Read the article about the microwave oven and answer the question:

How the microwave oven was invented

If the American Percy Spencer had not worked on the vacuum tube called magnetron, today we would not have the microwave oven. One day the doctor casually discovered that a piece of candy in his bag had melted and thought it may have been caused by radiation from the magnetron.

Spencer decided to put corn seeds, eggs, and other products next to the vacuum tube, and they were all affected.

After this event the invention of the microwave oven occurred.

How would the kitchen have been like if the microwave oven hadn't been invented?
