Message 1:

📞 Hello, it's professor Storm. Here's my report on Mira the monkey. Everything's fine, she's very small, she *sometimes* gets out of her basket and she *always* stays in the house. She *always* drinks her morning milk. She's a wonderful little monkey!

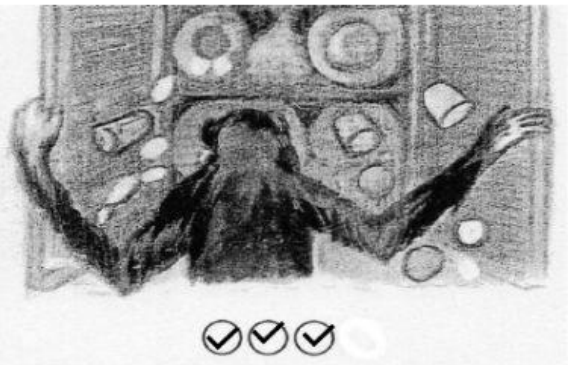

Message 2:

📞 Hello ... er ... it's Professor Storm with my second report on Mira, the monkey. She's bigger now and stronger. She *sometimes* eats bananas and ... she *often* makes a noise. She *never* stays in her basket and she *sometimes* plays with the radio ... Mira ... No! No! Not that switch!

Message 3:

☞ Hello ... hello ... Professor Storm here. Mira is naughtier now! She *sometimes* eats my dinner. She *often* opens cupboards ... Mira! ...

Message 4:

☞ Help! ... Please ... Storm here! Mira is impossible! She *always* jumps on my bed in the morning. She *often* swings from the lamp, and she *always* teases my cat, and ... *often* breaks things ... Miiirraaa!
