

# Fracciones – conceptos básicos

| FRACCIÓN     | RECTA NUMÉRICA                                                                     | CLASIFICACIÓN |
|--------------|------------------------------------------------------------------------------------|---------------|
| ONCE QUINTOS |   | IMPROPIA      |
| SEIS OCTAVOS |   | PROPIA        |
| ONCE MEDIOS  |   | IMPROPIA      |
| SEIS DÉCIMOS |  | PROPIA        |
| SEIS NOVENOS |  | IMPROPIA      |
| OCHO TERCIOS |  | PROPIA        |
|              |  |               |

UNE CADA FRACCIÓN IMPROPIA CON  
EL Nº MIXTO QUE LE CORRESPONDE

$$\frac{7}{6}$$

$$1\frac{4}{6}$$

$$\frac{9}{4}$$

$$3\frac{1}{4}$$

$$\frac{10}{6}$$

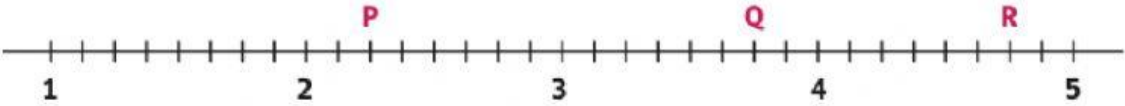

$$2\frac{1}{4}$$

$$1\frac{1}{6}$$

Escribe la fracción mixta y la fracción impropia indicada por las letras.

P =   $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$  y  $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$       Q =   $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$  y  $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$       R =   $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$  y  $\frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$

MUEVE LAS FRACCIONES PARA QUE CUMPLAN EL ORDEN SOLICITADO

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |
