

The law and young people in the U.S.

Leaving home: Young people (!) leave home at 18, but some stay at home until their late teens or early twenties, even if their parents are (!?) and have a lot of unfair house rules!

Getting married: You (!?) get married at the age of 16 if your parents agree, but it is (!) for people to get married so young. The most (!!) age to get married is 29 for men

Transportation: You (!) start to learn to drive a car at 15, but young people (!?) drive cars alone until they are 16. However, you can fly a glider, a small airplane without an engine, at 14! The fact that you can fly before you can drive a car doesn't seem very (!!) to a lot of people.

Body decoration: In most states of the U.S., young people (!) to wait until they are 18 before they can have tattoos. It also isn't (!!!) to have a piercing at any age. You need your parents' permission in most states if you aren't 18.

Reading

1 Read the text and choose the correct word for each gap.

- | | | | | |
