

## GRAMMAR PRACTISE

### QUANTIFIERS: ALL, MOST, MANY, SOME, NO/NONE OF THE.

1. Read the sentences (1-5) and match them with the diagrams (a-e)

- 1 **All** species are important.
- 2 **Most** bees are in danger.
- 3 **Many** birds eat berries and seeds.
- 4 **Some** medicines come from plants.
- 5 **None of the species** is a true pollinating machine.

2. Complete the sentences with the correct animals.

sharks	elephants	kangaroos	bears	birds
--------	-----------	-----------	-------	-------

- 1 Some elephants live in India.
- 2 Most \_\_\_\_\_ are dangerous for swimmers.
- 3 Many \_\_\_\_\_ migrate to warmer places In winter.
- 4 No \_\_\_\_\_ live in tropical climates.
- 5 All \_\_\_\_\_ can jump.

3. Choose the correct quantifier to complete the text.

<sup>1</sup> **Most** / **No** people like animals and <sup>2</sup> **many** / **all** of us keep pets. <sup>3</sup> **Some** / **Most** people keep exotic animals, like snakes or spiders but <sup>4</sup> **most** / **no** pets are cats and dogs. <sup>5</sup> **Most** / **All** dogs are very friendly and love to play. However, <sup>6</sup> **some** / **no** dogs can be dangerous. <sup>7</sup> **Many** / **All** experts say that everything depends on training. <sup>8</sup> **Most** / **Some** dog owners teach their dogs to attack people and animals. We read about <sup>9</sup> **many** / **no** accidents where children are seriously injured by aggressive dogs. So remember to be careful when you go jogging in the park – <sup>10</sup> **all** / **no** dogs are completely safe.
