

# What is coronavirus?

I'm really, really \_\_\_\_\_. You can't even see me with a microscope.  
I have two names: \_\_\_\_\_ and \_\_\_\_\_.  
My family (or cousins) are the \_\_\_\_\_ and \_\_\_\_\_.  
I love to travel and \_\_\_\_\_ from \_\_\_\_\_.

## Make sure you:

1. \_\_\_\_\_ with soap for \_\_\_\_\_ seconds.
  2. cover your mouth when you \_\_\_\_\_ or \_\_\_\_\_.
  3. avoid touching your \_\_\_\_\_, \_\_\_\_\_, or face.
  4. avoid touching others. No \_\_\_\_\_, no \_\_\_\_\_, and no \_\_\_\_\_.
  5. be extra careful around your \_\_\_\_\_.
  6. if you feel hot or start coughing, tell anyone who is \_\_\_\_\_.
- If I stay away, less people will be \_\_\_\_\_.

coronavirus / person to person / looking after you / sick / handshakes / hugs / common cold / wash your hands / grandparents / sneeze / jump / cough / tiny / twenty / flu / COVID-19 / high-fives / eyes / mouth
