## ¡NOTEMOS ALGO!

¿Recuerdas en qué casos usar “IT IS” o “THEY ARE”?

Claro que te acuerdas, usaste “they are” cuando aprendimos sobre los integrantes de familias en inglés. Ahora vamos a explicar cómo se usa cuando nos referimos a los alimentos.

Observa los siguientes ejemplos:

### SINGULAR

It **is** from the Peruvian Amazon.

(Soursop)

### PLURAL

They **are** from the Peruvian Amazon.

(Soursops)

¿Puedes identificar qué usa el POST de María para hablar de las alcachofas? Escribe la oración donde utilice **THEY**.

## ¿Qué podemos concluir?

Completa la conclusión con las siguientes palabras:

IS

ARE

SINGULAR

PLURAL

Cuando nos referimos a un solo objeto o alimento, es decir el **1**, usamos “IT **2**” y cuando nos referimos a más de un objeto o alimento, es decir al **3**, usamos “THEY **4**”.

La semana pasada, al final de la página 8 mencionamos que las palabras chicken, butter, milk, cheese, fish, sugar, meat y lettuce **no tienen plural**. Añade a esta lista los superfoods: **maca, cañihua, sacha inchi, muña, chia y cat's claw**. **Y usa siempre “It is...”** para referirte a ellos. Más adelante aprenderás que en inglés algunos alimentos se consideran contables y otros no contables.
