Chores from Long Ago

Joseph Macgill, United States: I have to carry wood into the house. We use the wood to make a fire. The fire keeps us warm, and we also use it to cook our food. Every summer my dad and I go to the forest and cut trees. Then we chop the trees into smaller pieces of wood. It's hard to carry wood—it's heavy!

Sarah Donaldson, Australia: I have to get water for my family. We have a pump outside. I move the pump handle up and down. After a minute, water comes out. The water goes into a bucket, and I carry the bucket inside. We all use the water for drinking, cooking, and bathing. When we want hot water, we put some in a pot, and heat it on the stove.

Annabelle Dubois, France: Every night before I go to bed, I have to wind our clock. You have to use a special key to wind the clock. If you don't wind the clock every day, it stops working. It's not a very interesting chore, but it's a very important one! Then I fill lamps with oil. We need oil in the lamps to make light. We use the lamps at night to read books and do our homework.
