Question 1-5:

Look at the six advertisements for student accommodation, A-F.

For which advertisements are the following statements true?

NB You may use a letter more than once.

1. It is possible to cook in the room.
2. Food is provided as part of the price.
3. You have your own bathroom.
4. The room is available for a limited period only.
5. There is a safe place to keep your bicycle.

Questions 6-14:

Look at the manual below.

Which section of the website (A-E) should you click on if:

6. you have received a letter at your house which is addressed to somebody you don't know?
7. you have a large envelope to post which is not very heavy and you want to know if it will cost more?
8. you want to send some books to a friend in another country?
9. you want to know if you are allowed to send fresh food through the post?
10. you would like to post some money to your family and want to know the best way?
11. you have to send an urgent letter and need information about the fastest service?
12. you are moving to a new address and want your mail sent there instead of to your current address?
13. you want to pay for postage over the internet?
14. you want advice on the best type of envelope to use for a small parcel?

SECTION 3:

THE HISTORY OF BADMINTON

Badminton is a racquet sport in which two or four players hit an object called a shuttlecock backwards and forwards across a high net. Some people regard it as the oldest racquet sport in the world, although the earliest forms of the sport probably did not use a racquet, and the net is a relatively recent innovation.

A shuttlecock is a lightweight ball made of cork, with feathers attached to it to help it fly. It is thought that shuttlecocks were first used about 2,500 years ago in China – although they were kicked rather than being hit with a racquet in those days. A racquet sport using shuttlecocks was certainly known in ancient Greece around 2,000 years ago, as well as in China and Japan, and a version of the game has been played by children across Asia for ever since. The aim was to keep hitting the shuttlecock backwards and forwards for as long as possible. The modern game we call badminton was developed in England, however, and not until the 19th century.

British soldiers learnt to play a game using shuttlecocks whilst serving in India from the middle of the 18th century onwards. When they came home, they brought the game with them. At this point, it was called Poona – named after a place in India – and from about 1860, it became popular in England. That is where a net was first introduced in 1867, and the modern system of scoring began to evolve, although there were lots of disagreements about the rules amongst the players, and no official organisation to govern the sport.

All this changed in 1887. The name 'badminton' was introduced after a famous party at a country house of that name in that year. At the party, a game was played that was very similar to the one we call badminton today. A set of modern rules was drawn up and published in 1893, and the Badminton Association of England was formed in 1895 to govern the new sport and organise championships. The first of these were held in 1899 and 1900, for men and women respectively. Badminton can be played by both men and women, although slightly different rules and scoring systems apply.

The new sport soon became very popular in England. By 1920, there were 300 badminton clubs in the country, and that figure had risen to 500 by 1930. At the same time, the sport was catching on in other countries too, and in 1934 an International Badminton Federation (IBF) was set up. The IBF decided to run international championships in 1939, but because of the second world war, the first one didn't take place until 1948, and then only for men. The first international women's championships were held in 1957.

Badminton was first played at the Olympic Games in 1972, but only as a demonstration sport – there was no actual competition and no medal winners. Although this happened again in 1988, it was 1992 before badminton was played as a fully recognised Olympic sport – with the mixed doubles being added in 1996.

Badminton is now one of the most widely played sports in the world. It is one of the fastest racquet sports, with shuttlecocks travelling at up to 260 miles per hour in top competitions, and so is very exciting to watch as well as play.

Questions 28-34:

Complete the table below. Choose **ONE NUMBER ONLY** from the text for each answer.

YEAR	EVENT
28. _____	The modern game was first played at Badminton House in England.
29. _____	The first written rules for the game called badminton became available.
30. _____	A national badminton organisation was formed in England.
31. _____	The first men's national championships were held in England.
32. _____	An international badminton organisation was formed.
33. _____	The first international competition for women was held.
34. _____	Badminton became an official Olympic sport.

Questions 35-40:

Do the following statements agree with the information given in the text? In boxes 35-40 on your answer sheet, write

TRUE *if the statement agrees with the information*

FALSE *if the statement contradicts the information*

NOT GIVEN *if there is no information on this*

35. People in China used to kick shuttlecocks to each other.
36. The shuttlecock was invented in Greece.
37. The badminton net was first used in India.
38. Women's badminton has the same rules as men's badminton.
39. Men and women can play against each other in the Olympic games.
40. A shuttlecock can travel faster than a tennis ball.
