ICELAND

Last month we decided to visit Iceland. As we Prepared for our trip, we became more and more interested in the weather forecasts. Usually we prefer to travel to warm countries. We decided to go there because it looked interesting. When we got there we found that the weather wasn't very pleasant. It was windy, foggy, wet and cold most of the time. Sometimes we couldn't see anything at all. It's also very expensive, so we feel that this is one of the most extreme holidays we've ever had. *Sam and Genna*

MODERN NOMAD

Ten years ago I left my job in New York for a year to walk around the world. I wanted to travel for a year. Ten years later I'm still travelling. I do some work and volunteering and I meet some amazing people who are happy to give me accommodation when I have problems finding somewhere to stay. I've visited over 100 countries and still have more that I want to see. It's not all fun, though. Sometimes it can be very hard work, lonely and scary, especially when you don't speak the native language and the police stop you! However, I've had some amazing experiences and hope to have many more before I stop travelling. *Michael J*
