

FICHAS DE REPASO

TEMA: Series numéricas

CURSO: Lógico Matemático

1. Completa la serie numérica

The image contains three separate number sequence puzzles, each with a cartoon character on the left and an object on the right. The puzzles are arranged in a descending staircase pattern from top-left to bottom-right.

- Top puzzle:** A monkey is on the left. The sequence starts with a box containing '1', followed by an empty box. The sequence then goes down to another empty box, then right to a box containing '6', followed by an empty box. It then goes down to a box containing '9', followed by an empty box. A banana is on the right.
- Middle puzzle:** A girl is on the left. The sequence starts with an empty box, followed by another empty box. It then goes down to a box containing '3', followed by an empty box. The sequence then goes right to a box containing '5', followed by two empty boxes. It then goes down to an empty box, followed by a box containing '10'. A sheep is on the right.
- Bottom puzzle:** A frog is on the left. The sequence starts with an empty box, followed by a box containing '2'. It then goes down to a box containing '3', followed by an empty box. The sequence then goes right to an empty box, followed by a box containing '7', followed by an empty box. It then goes down to an empty box, followed by another empty box. A flower is on the right.
