

My family Sort

Instructions: Read the short story below about Lily's family. Then answer the questions that follow.

Hello, I'm Lily. Today is my birthday party! My whole family is coming to celebrate, both my immediate family and my extended family. Do you want to meet them? I'll introduce you.

I'll introduce my extended family first, they came all the way from London, England! There's my Grandparents Martin and Margaret, you'll see they really like names with the letter 'M.'

Next, there's my cousin Victor and his parents. My mother's brother is Max and he is married to my aunt.

Now, for my immediate family, we live in Madrid, Spain! I live with my mother, father, and two older siblings. My mother is Mary and of course she's married to my dad. I have an older sister, Olivia, she's mean. Then there's my brother, he is also older, but only by a year or so!

Oh, time for me to open my presents! Were you able to sort everyone out, I bet you did great! Talk to you later!

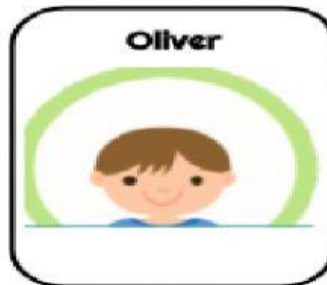

Questions

Instructions: Sort the Family Members by connecting them to their title/realtion to Lily.

Number 1: Who is Lily's Grandmother?

Number 2: Who is Lily's Cousin?
