

Level: 5

Sub: Science

Topic: Super Senses of Animals

I. Complete the given table:

Animal	Super sense (Sight/Smell/Hearing)
	
	
	
	
	

II. Match the following:

1. Cats - eyesight is 3-4 times sharper than humans.
2. Dolphins - smell with their tongues
3. Eagle - have a strong night vision
4. Mosquitoes - use echolocation to find their way in dark
5. Snakes - attracted to humans by their body odour

III. Drag and drop the animal picture according to the description:

This animal can spot its prey from a height of 10,000 -15,000 feet.	This animal can hear sounds beyond the range that humans can hear.	This animal can move their ears in different directions and catch the sounds from all around.
