

## READ THE TEXT BELOW. USE THE CLUES TO GUESS ANIMALS 1 – 6

It wasn't easy to get to Buddha's house. There was a problem. There was a river in front of the house, but there wasn't a bridge.

Thirteen animals arrived at the river and looked across at Buddha's house. **1** was very strong. He immediately walked into the water and swam across. **2** and Cat jumped onto **1**'s back, but **2** pushed Cat into the water.

When they arrived on the other side of the river, **2** jumped off and got to Buddha's house first, just before **1**.

Tiger swam across the river and arrived next. **3** jumped from stone to stone and arrived fourth. **4** flew and arrived in fifth place. She wasn't first because she helped other animals on the way. Snake arrived next, and then Horse. They both swam across. Goat, Monkey and Rooster went by boat. They were eighth, ninth and tenth.

Dog arrived next. He was a good swimmer but he took a long time because he played in the water. The twelfth animal to arrive was **5**. He was late because he got hungry during the race and stopped for a sandwich. Then he fell asleep. Finally **6** arrived, but she was thirteenth, so she wasn't part of the Chinese zodiac.
