

OUR PLANET EARTH 1

Click on the picture to watch this video from the British Council

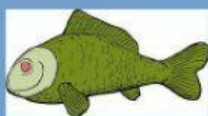

Click on the pictures to listen. Then drag each animal back to its habitat.

Listen to the question and choose the right answer :

example :

YES

YES

YES

YES

NO

NO

NO

NO

What do they pollute ? Listen, then join the words together

Choose the right word to fill in the blanks

need forests plastic rubbish cut the ice protect factories live die
paper and card mistake rivers

Our pollute the rivers where fish

Many animals and plants live and grow in but we the trees to make

We drop our in oceans. Turtles them for jellyfish and they

Because we spoil the atmosphere in Arctic and Antarctic, is melting and many animals are suffering.

Animals have a right to live, and we forests, oceans, rivers, animals to survive. We must them!
