

The Heart

1. Watch the video.

2. Fill in the crossword with information about the heart.

1. — **H** —
2. — **E** —
3. — **A** —
4. — **R** —
5. — **T** —

1. The heart is in the middle left part of our _____
2. The little doors that let the blood go from one chamber to the next are called _____
3. Our body needs _____ blood.
4. Our heart is made up of four _____
5. The heart pumps blood into the _____ system.

3. How does the heart work? Put the blood circuit in order

	The blood goes to the lungs through the pulmonary artery.
	The deoxygenated blood enters the heart. It goes into the upper right atrium.
	Finally, the oxygenated blood goes to the rest of the body.
	Through the tricuspid valve the blood goes to the second chamber.
	The blood mixes with oxygen.
	Then through the mitral valve, the blood goes into the fourth chamber.
	The oxygenated blood goes through the pulmonary vein to the left atrium.
