Vocabulary Round-up

Weighty health problems

A) Overweight: Study the examples, and then place the words in bold in the table.

1. She is not **obese** by any means, but she's put on weight and now has a rather heavy-set, **stocky** appearance: a bit like a stack of bricks, if the truth be told.
2. Humpty Dumpty comes to mind. He's gained 50 pounds and is now virtually **rotund** ! Kidding aside, I'm concerned. It's not healthy for anyone to be so **corpulent**.
3. What an adorable, **plump** little baby! Look at those **chubby** cheeks and **pudgy** fingers. She's a **tubby** one all right, but she'll soon lose her baby fat.
4. He used to be athletic, but he's totally out of shape now. Look at that **flabby** stomach.

Grossly overweight in an unhealthy way (big-bodied)	(clinical, formal)
	(more descriptive, literary)
Fat (somewhat insulting, impolite)	(thick, solidly built)
	(fat and rounded)
	(with loose-hanging flesh)
Fat in an attractive, pleasant way (often affectionate and/or funny)	(softly rounded fleshy)

B) Underweight: Match the synonyms on the left with their meanings on the right.

1. Skinny-scrawny

a) So thin that one's bones stick out

2. Slender-willowy

b) Thin, healthy, athletic-looking, with little or no fat

3. Wasted-emaciated

c) Painfully thin and unhealthy, like starving children

4. Bony-skeletal

d) Thin and weak-looking, like a scarecrow

5. Slim-lean-trim

e) Attractively long and thin, like a long-limbed ballerina or a tree with graceful branches.

C) Choose the correct words or phrases according to their meanings.

1. state clearly/simplely

RELINQUISH

DECODE

SPELL OUT
