Florida is sunnier than New York.

3- READ AND COMPLETE

- a- What is the name of the first place? Where is it? IN
- b- What is the name of the second place?

Extreme Earth

The Coldest Place in the World

The coldest place in the world is Antarctica. Antarctica is a continent, but very few people live there because it's so cold. The days are very different from our days. For the first six months of the year, there is only sunlight. Then for the second six months of the year, there is only darkness. In July 1983, the temperature was -89.2°C . That's the coldest air temperature in history!

The Hottest Place in the World

Where do you think the hottest place in the world is? The hottest place in the world is Death Valley in the United States. It's really hot! It's even hotter than the Sahara Desert. In July 1913, the temperature in Death Valley was 57°C . That's the hottest air temperature in history!
